

OUSSAMA EZITOUNI

Senior Full-Stack Engineer | JavaScript Expert | PHP Specialist | DevOps Architect | Technical Lead

Kenitra/Rabat, Morocco | ezitounioussama@gmail.com | LinkedIn | GitHub | gotodev.ma

PROFESSIONAL SUMMARY

Results-driven Senior Full-Stack Software Engineer with 3+ years architecting and deploying scalable web applications across enterprise and startup ecosystems. Dual expertise as a JavaScript expert (React, Next.js, Vue, Angular, Node.js, NestJS) and PHP specialist (Symfony, Laravel, PRADO). Proven track record leading technical teams, mentoring engineers, and driving DevOps transformation. Co-founder of GoToDev, delivering 12+ production projects. Deep knowledge of Docker, Kubernetes, CI/CD, cloud-native infrastructure, and database architecture. Owns the full SDLC from requirements gathering and system design to production deployment and performance optimization.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, PHP, Python, HTML5, CSS3, SQL, Bash

JavaScript Ecosystem: React 19, Next.js 15, Vue.js, Angular, Svelte 5, Node.js 22+, Express.js, NestJS, Fastify, Redux, Zustand, TanStack Query, Webpack, Vite, Jest, Cypress, Playwright

PHP Ecosystem: Symfony, Laravel, PRADO Framework, Composer, PHPUnit, Twig, Doctrine ORM, Eloquent ORM, REST API, GraphQL

Frontend & UI: Tailwind CSS, Bootstrap, Material-UI, Ant Design, Sass/Less, Responsive Design, Accessibility (WCAG), Figma-to-Code

Cloud, DevOps & Infra: Docker, Kubernetes, GitHub Actions, GitLab CI, Jenkins, Nginx, Apache, Prometheus, Grafana, Linux (Debian, Arch), Terraform, AWS (EC2, S3, RDS)

Databases & Caching: PostgreSQL, MySQL, MongoDB, Redis (Clustering), Firestore, Elasticsearch, Query Optimization

Tools & Practices: Git, GitHub, GitLab, Jira, Agile/Scrum, TDD, Microservices, gRPC, tRPC, WebSocket, OAuth 2.0, JWT, SSL/TLS

Data Science & Emerging: Python (Pandas, NumPy, Scikit-learn), ML Classification, Data Visualization, Hedera Blockchain

PROFESSIONAL EXPERIENCE

Senior Software Engineer & Technical Lead

June 2023 - Present

Intelcia Tech, Rabat, Morocco

- Architect and deliver frontend solutions for large-scale enterprise platforms using React, Next.js 15, TypeScript, achieving 40% performance gains and 10x traffic capacity increases.
- Lead backend development with PHP (Symfony, PRADO) and Node.js (NestJS, Fastify), designing RESTful APIs, database schemas, and microservices serving millions of users.
- Design and maintain Docker-based containerized environments, implementing CI/CD pipelines with GitHub Actions to standardize deployments across distributed teams.
- Refactor legacy PHP (PRADO/Symfony) and JavaScript codebases, improving security, code quality, and maintainability for national-scale deployments across 50+ institutions.
- Drive code review processes, engineering best practices, and mentor 5+ junior developers through structured onboarding and pair programming.
- Own client-facing technical scoping, effort estimation, and project planning, translating business requirements into engineering roadmaps.

Co-Founder, Lead Architect & Senior Full-Stack Engineer

2022 - Present

GoToDev (gotodev.ma), Morocco

- Co-founded and scaled a software agency, delivering 12+ web/mobile apps using React, Next.js, Vue.js, Node.js, PHP (Laravel, Symfony), React Native.
- End-to-end ownership of system architecture, database design (PostgreSQL, MongoDB, Redis), API development, frontend, DevOps (Docker, CI/CD), and cloud deployment.
- Built Nlivrilik (nlivrilik.ma): real-time last-mile logistics platform with GPS tracking, driver routing, multi-role dashboards — Next.js, Node.js, PostgreSQL.
- Delivered Aksam Assurance (insurance), Paylik (fintech), HoussniJob (recruitment), Ibn Tofail University, Jadara Foundation (NGO), abat-consulting.ma, whynotbrand.ma.
- Developed Toolkit.gotodev.ma, a developer utility suite; maintain gotodev CLI (100+ weekly npm downloads).

Data Science Instructor

2023 - 2024

GoMyCode Morocco, Rabat

- Delivered Data Science and ML courses (Python, Pandas, Scikit-learn, visualization, predictive modeling) to cohorts of 5-10 students per session.

EDUCATION & CERTIFICATIONS

M.Sc. Computer Science (Bac+5)

Woolf University, EU-Accredited (Remote)
In Progress

Licence MIAGE (Bac+3) - European Bachelor

IT
FEDE Equivalence, France / Morocco
Completed

DUT MIAGE (Bac+2)

Universite Mohammed V, Rabat
Completed

Certifications: Certified JavaScript Developer (Orange) | Software Engineering & Data Science (ALX Africa) | Certified Hedera Blockchain Developer (The Hashgraph Association)
